

Gulf Power®

September 9, 2021

Dear Valued Gulf Power Customer:

We are pleased to announce that Gulf Power is making an investment in your neighborhood to help you use energy wisely. In the coming weeks, you and your neighbors will have the opportunity to participate in Community Energy Saver – a unique energy-saving program, which includes free products and the free installation of home energy efficiency measures. This program is available to residents in single- and multi-family homes and townhomes.

You can choose to take advantage of this service when the Community Energy Saver energy efficiency team arrives at your home or you can schedule a convenient time in advance by calling toll-free, **1-855-801-6192**. A member of the team will leave a reminder notice on your door the day before the scheduled visit.

Through Community Energy Saver, you will receive:

1. A walkthrough of your home by a team member to assess what areas would benefit the most from available products.
2. Free energy-saving products installed by a trained professional. These products include LED light bulbs, water-efficient faucet aerators and showerheads, and AC return-air grille filters.
3. Energy-saving tips and referrals to other services to help you manage your family's energy use.

The Community Energy Saver energy efficiency team is planning to be in your community for several weeks. Crews will be wearing identification and driving vehicles marked Community Energy Saver.

For more information on this service offered by Gulf Power, please call toll-free, **1-855-801-6192**.

Sincerely,

John N. Floyd
Manager of Strategy and Market Intelligence
