

RESOLUTION INDICATING INTENT TO JOIN WITH OTHER
GENERAL PURPOSE UNITS OF LOCAL GOVERNMENT IN THE
BAY COUNTY AREA TO DEVELOP AND WORK TOWARD THE
IMPLEMENTATION OF A PLAN RESULTING IN A COORDINATED WASTE
TREATMENT MANAGEMENT SYSTEM FOR THE AREA

63

WHEREAS, pursuant to Section 208 of the Federal Water Pollution Control Act Amendments of 1972, P.L. 92-500 (hereinafter called "the Act"), the Administrator of the United States Environmental Protection Agency has by regulation published guidelines for the identification of those areas which, as a result of urban-industrial concentrations or other factors, have substantial water quality control problems (40 CFR Part 126); and

WHEREAS, the Bay County area (hereinafter called "the Area") satisfies the criteria contained in the Act and guidelines and designation of the area pursuant to section 208 and those guidelines is desirable; and

WHEREAS, Section 126.10 of the guidelines requires, among other things, that the affected general purpose units of local government within the problem area must show their intent, through formally adopted resolutions, to join together in the planning process to develop and implement a plan which will result in a coordinated waste treatment management system for the area; and

WHEREAS, such planning process and waste treatment management system is a necessary and significant measure to control present point and non-point sources of water pollution and to guide and regulate future development and growth in the area which may affect water quality, in order to prevent, abate and solve existing and potential substantial water quality control problems;

NOW, THEREFORE, IT IS RESOLVED THAT the City of Springfield, recognizing that the Bay County area has substantial water quality control problems, supports designation of the Area pursuant to Section 208 and the EPA guidelines.

IT IS FURTHER RESOLVED THAT THE City of Springfield intends to join together with other affected general purpose units of local government within the boundaries of the area to work toward the implementation of a plan which will result in a coordinated waste treatment management system for the area.

IT IS FURTHER RESOLVED THAT all proposals for grants for construction of publicly owned treatment works within the boundaries of the designated area will be consistent with the approved plan and will be made only be the designated management agency.

Approved this 6th day of Jan, 1975.
